

Kristian Lorén

Spring 2018 Collection

The Kristian Lorén Spring 2018 Collection was inspired by her recent travels to Mexico and the Caribbean. Influenced by the beautiful deep blue water of the Sea Of Cortez to the variety of textures and colors of the Caribbean sand, Lorén discovered her color pallet for her Spring 2018 collection.

Her mission for this collection is to create the perfect recipe for women to embody effortless, chic, comfortable clothing that will take her customer from a summer day to a summer night, all while adding a dash of sex appeal to keep life interesting.
